

SINTO

SHAKE BLAST

Sinto Technology Offers The Special Trough Shake Blast For Steady In-Line Blasting.

The gentle turning and intensive blasting by impellers directly above the workload provide uniform cleaning even for difficult to clean parts.

- Castings with gating systems can be blasted with steady efficiency.

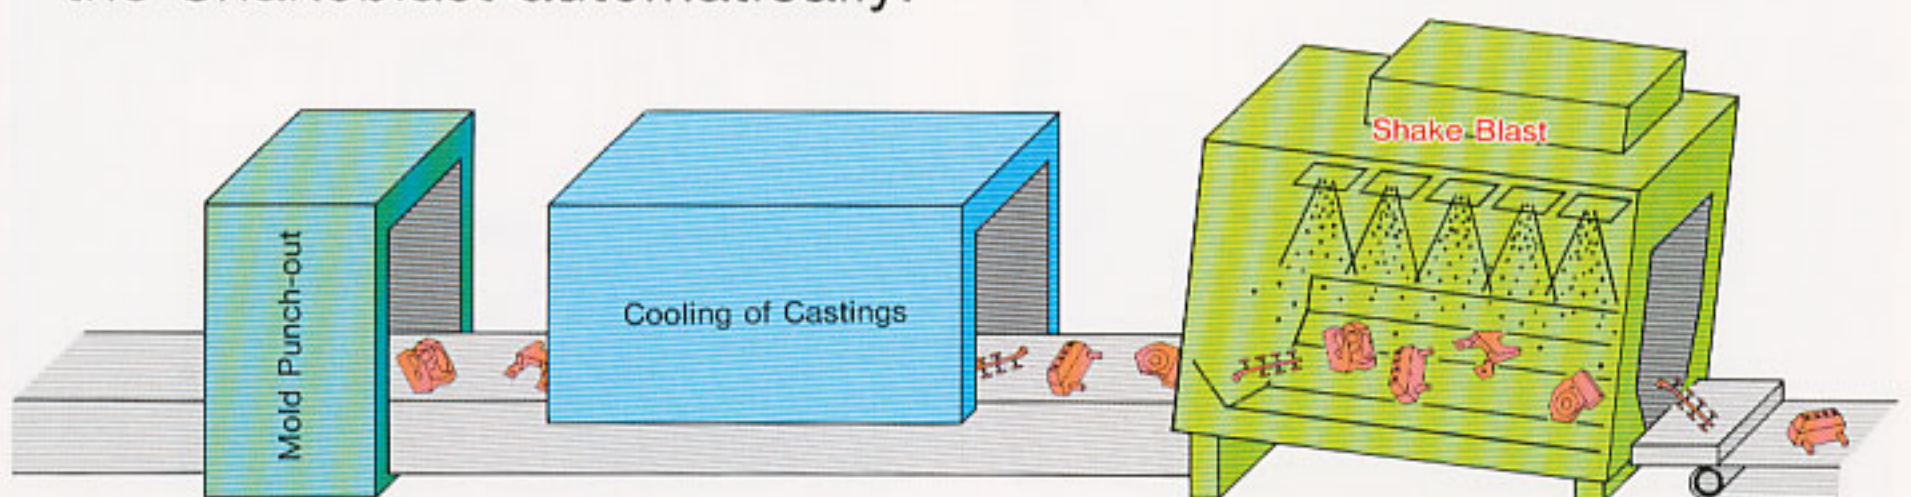

- Dust collector assures a dust-free working environment.

- Specially developed polygonal trough allows for gentle turning of workpieces and eliminates entanglement during tumbling.

- The oscillation and inclination angles of the trough can be set according to casting for optimum blasting efficiency.

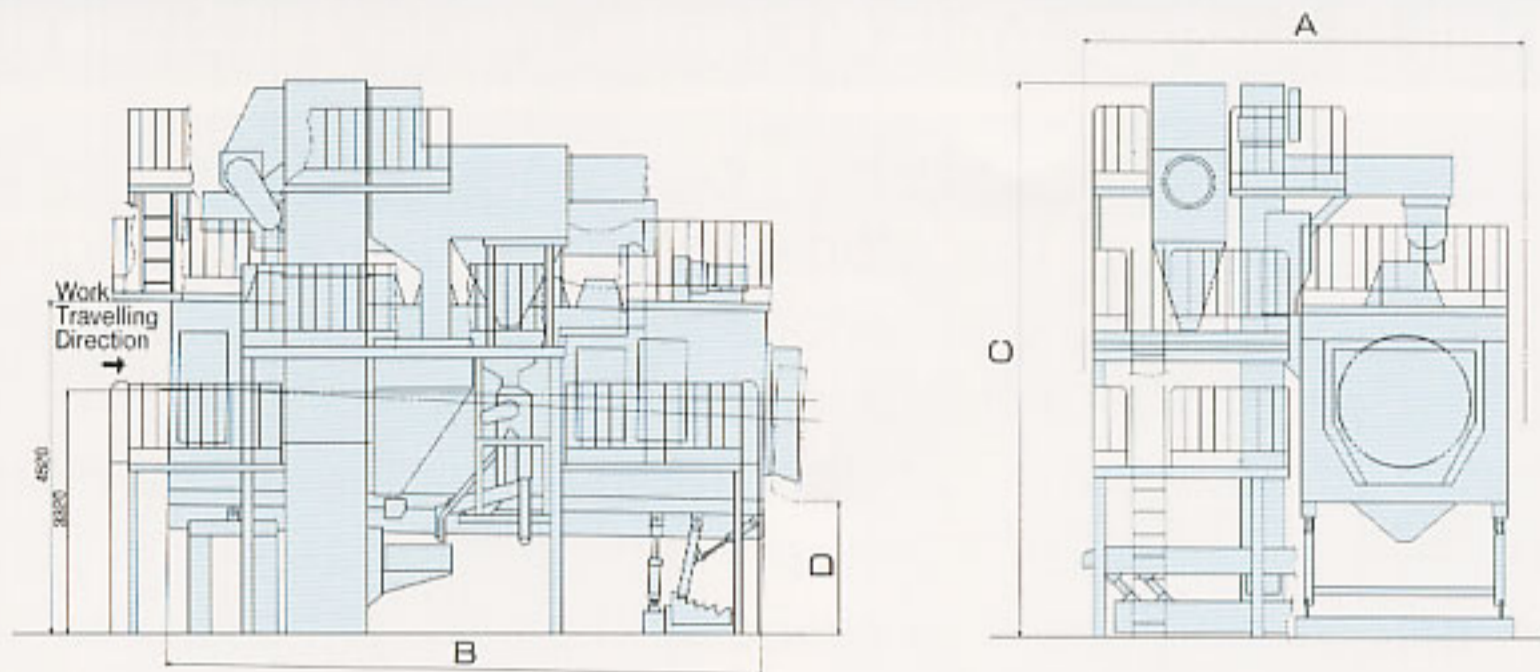

Compact Design For Easy Integration In The Production Line Contributes To Both Simplification And Automation Of Fetting.

Shakeblast is designed for easy in-line installation in existing works. After cooling, castings with gates are transported to the Shakeblast automatically.

■ Castings with gating systems can be blasted with steady efficiency.

MACHINE DIMENSIONS

Model	SUA-5	SUA-8	SUA-10
A	6000mm		
B	6500mm	8100mm	
C	7500mm		
D	1749mm	1600mm	

■ Specifications are subject to change without prior notice.

SPECIFICATIONS

Model	SUA-5	SUA-8	SUA-10
Blasting Capacity	5-8 ton/hr	8-10 ton/hr	10-15 ton/hr
Maximum Size	800X550X400mm		
Workpiece Weight	150kg.		
Blasting Model	X-30(22kW×4P)		
Wheel Quantity	5	6	7
Shaking of Trough	Angle:4-step selection(Hydraulic motor driven)		
Inclination of Trough	Angle:5-step selection(Hydraulic cylinder)		
Dust Model	Continuous Ultra Jet		
Collector Air Flow	300m ³ /min.	400m ³ /min.	400m ³ /min

■ Specifications are subject to change without prior notice.

Sinto companies form a solid worldwide network committed to the philosophy we call "3 in 1". Sinto's "3 in 1" philosophy is to delivery our customers superior engineering and technologically advanced equipment, high quality shot and abrasives, and responsive maintenance and technical services. The "3 in 1" philosophy is shared throughout Sinto's worldwide organization, with each member contributing engineering, resources, and experience to provide the latest technology.
